Please find below and/or attached an Office communication concerning this application or proceeding.

DETAILED ACTION

1. This communication is in response to amendment filed 3/2/05.

Election/Restrictions

2. The applicant's response to the Election/restriction requirement mailed 2/2/2005 is deemed non-responsive for the following reasons. The applicant must make election to one of the inventions even if the basis for election/restriction requirement is traversed.

35 U.S.C. 121. Divisional applications.

If two or more independent and distinct inventions are claimed in one application, the Director may require the application to be restricted to one of the inventions. If the other invention is made the subject of a divisional application which complies with the requirements of section 120 of this title it shall be entitled to the benefit of the filing date of the original application. A patent issuing on an application with respect to which a requirement for restriction under this section has been made, or on an application filed as a result of such a requirement, shall not be used as a reference either in the Patent and Trademark Office or in the courts against a divisional application or against the original application or any patent issued on either of them, if the divisional application is filed before the issuance of the patent on the other application. If a divisional application is directed solely to subject matter described and claimed in the original application as filed, the Director may dispense with signing and execution by the inventor.

CFR 1.142. Requirement for restriction.

- (a) If two or more independent and distinct inventions are claimed in a single application, the examiner in an Office action will require the applicant in the reply to that action to elect an

Art Unit: 3624

invention to which the claims will be restricted, this official action being called a requirement for restriction (also known as a requirement for division). Such requirement will normally be made before any action on the merits; however, it may be made at any time before final action.

(b) Claims to the invention or inventions not elected, if not canceled, are nevertheless withdrawn from further consideration by the examiner by the election, subject however to reinstatement in the event the requirement for restriction is withdrawn or overruled.

The examiner recommends that the response to the election/restriction be made in the following manner.

The pending claims with the revised status should be then listed per format shown at USPTO website. Refer to link <http://www.uspto.gov/web/offices/com/sol/og/2003/week08/patform.htm> for further detail.

Conclusion

The reply filed on 3/2/05 is not fully responsive to the prior Office action because of the omission(s) or matter(s) presented in this office action. See 37 CFR 1.111. Since the above-mentioned reply appears to be bona fide, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
